TR2226 Transfer Case

For Allison 4000 series transmissions

Model TR2226 is a three gear transfer case designed for direct mounting to Allison 4000 series transmissions. The gearbox features a mounting flange, helical ground gears, tapered roller bearings, and heavy duty case. The gearbox is designed for severe service in both mobile and stationary equipment.

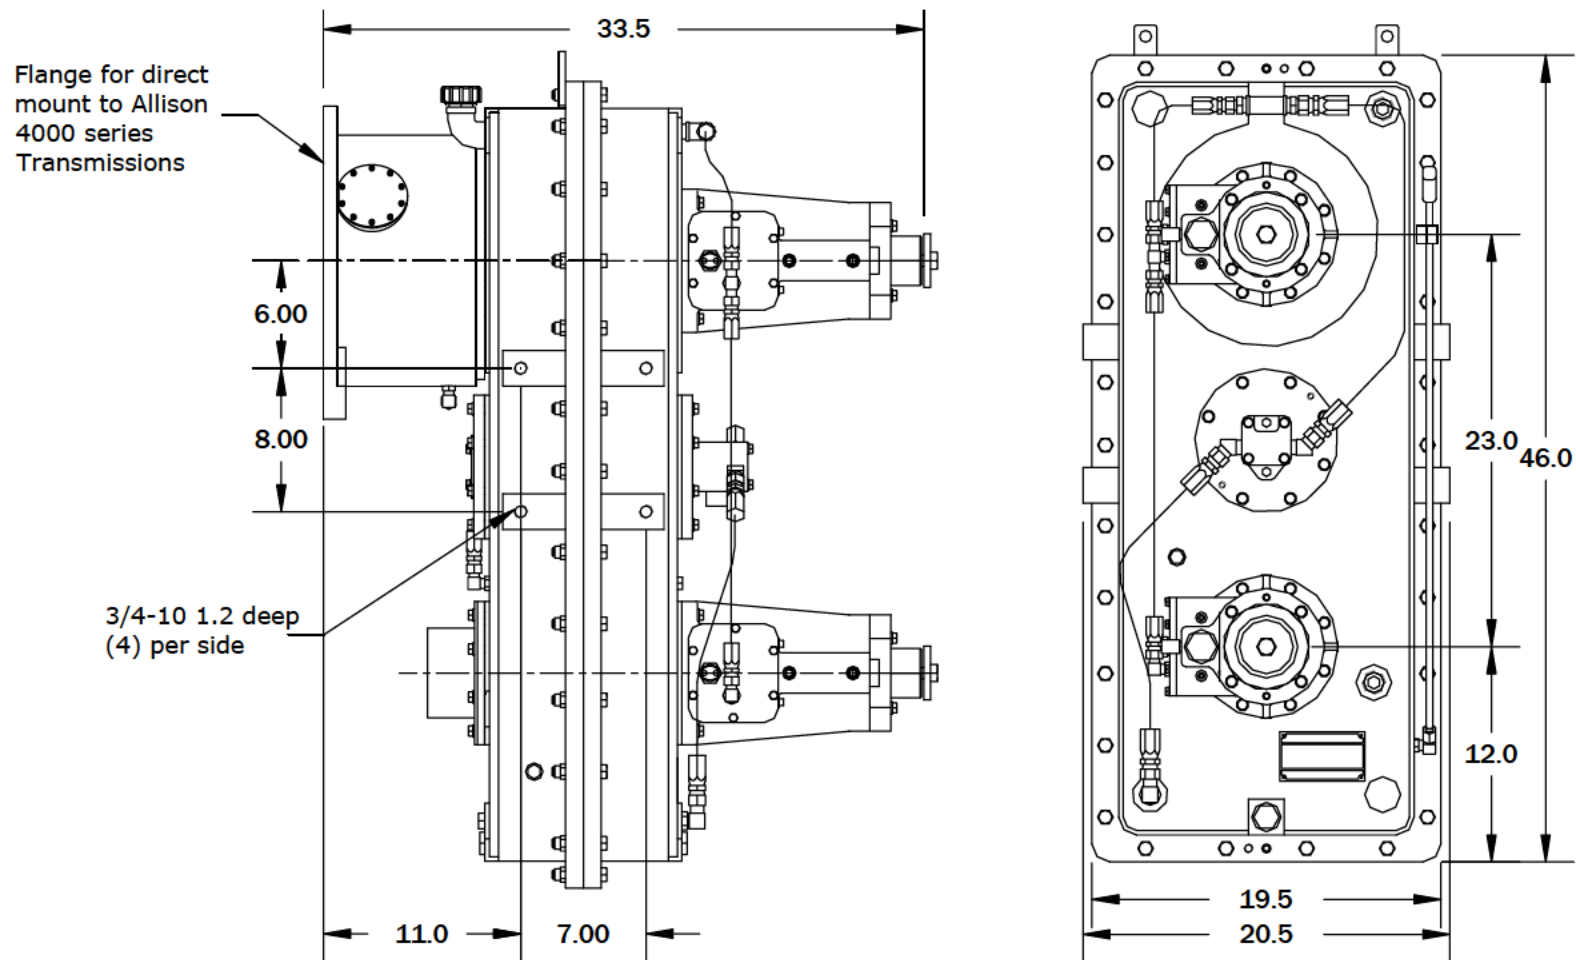

An optional disconnect can be added for the front axle, rear axle, and PTO.

A remote mount version without the flange is also available.
